- an indication of the reference number of the vacancy announcement (2017/UNU/EHS/PSA/RA/105).

PACET (Pan African Cooperation and Educational Technologies): aims to strengthen research, educational and institutional capacities of UNU-EHS in Africa. The program fosters the cooperation between UNUs and African institutions in higher education, research, policy and practice to develop innovative methods and appropriated solutions to address challenges particularly in the frame of the Agenda 2063 of the African Union and the Sustainable Development Goals (SDGs). The cooperation with the Pan African University as culmination of continental initiatives of the African Union Commission to revitalize higher education and research in Africa represents a main aspect of the programme. The programme particularly supports the institutional development of the Pan African University Institute for Water and Energy Sciences (incl. Climate Change – PAUWES) in Algeria by enhancing its teaching and research activities in water, energy and climate change thanks numerous projects (Water and Energy Security in Africa – WESA; Risk Assessment and Reduction strategies for Sustainable Urban Resource Supply in Sub-Saharan Africa – RARSUS; Higher Education Cooperation with PAUWES, etc.).

The Pan African University Institute of Water and Energy Sciences (including Climate Change) (PAUWES):

PAUWES is hosted at the University of Tlemcen, Algeria. The institute is part of the Pan African University – a project initiated by the African Union to revitalize higher education and research in Africa. It is a project that will exemplify excellence, enhance the attractiveness and global competitiveness of African higher education and research, and establish the Pan African University at

the core of Africa's development as part of a broad, integrated system of higher education across the African continent.
